THE GREAT AND ONLY

BARNUM & LONDON'S GLORIOUS CARNIVAL!

For the Traveling Season of 1884.

No Year since the union of our two-world famous Exhibitions has our prospects been as flattering, as at the present time. It is an incontrovertible fact—already known to the American People—that year after year our Combined Shows have gradually been growing larger and more attractive until at last we have reached the limit of greatness, by concentrating, ALL THE FEATURES that the Universal Nations of the Earth contain, in our vast and undisputed GREATEST SHOW ON EARTH. It is useless to attempt to do more and our patrons and the public must be content, for there is no more heathen lands to conquer, no more animal worlds to capture. Our grand army of discovery have penetrated every nook and corner of civilized and uncivilized creation, conquering step by step, until at last, all great powers bow in humble meekness before the combined energy and courage of our generals, backed by the capital and experience which we possess, and reluctantly contribute to our grand Ethnological, Zoological and Ornithological Congress, delegations of their most peculiar people and specimens of their animal kind, enabling us to-day, to make the bold declaration that nowhere on Earth does there exist a possible feature, obtainable, but what we have the distinguished honor and patented right, of presenting to our patrons, the present season, and now for the fourth time. Since the fates of our amusement enterprises were united, we come before our friends, WITH WHAT WE KNOW TO BE, and what we will make the Public at large and all OPPOSITION SHOWMEN admit to be the ONLY GREAT and POSITIVELY THE GREATEST SHOW ON EARTH, Respectfully,

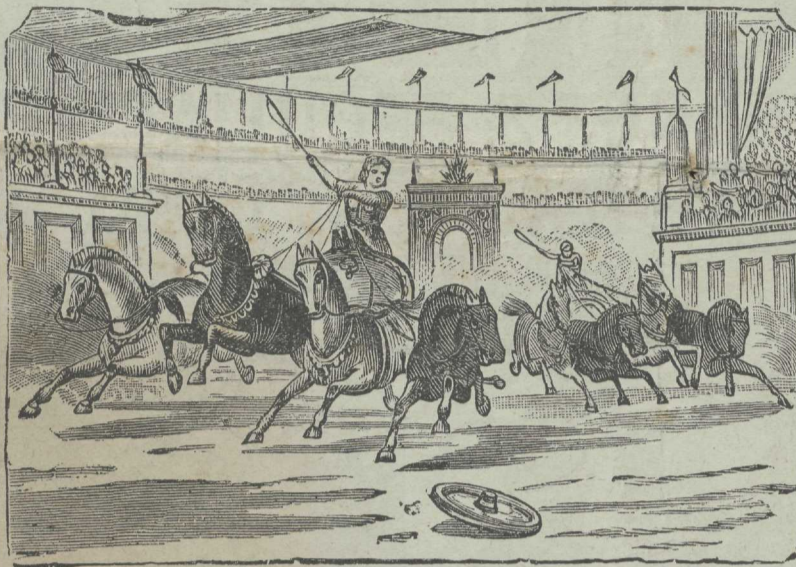

BARNUM, BAILEY and HUTCHINSON.
